Food Processing Solution  
**Since 1994**

## **WASHING MACHINE SERIES**

Bubble washing machine

# Why Choose IKE Bubble Washing Machine?

IKE Bubble Washing Machine is mainly used for vegetables and fruits cleaning. It imitates human washing motion. It can help us to reduce labor cost and improve work efficiency. The washing machine has ozone disinfection function to kill the bacteria and oxidize pesticides too. It is a perfect equipment for food processing, catering, supermarkets and other industries.

Leaf Vegetables Cleaning

Fruit Cleaning

MAKE YOUR FOOD  
**SUPER CLEAN**  
WITH IKE MACHINERY

## Features

- \*Stainless steel 304 material entirely
- \*Food grade POM conveyor belt
- \*Bubble cleaning without damage
- \*Second spray for further cleaning
- \*Ozone disinfection function
- \*Button operation and easy maintenance
- \*Use as stand-alone or connect with other machines

## Small Washing Machine With Bubble

DS-WB055

DS-WB150

The small bubble ozone washing machine use high-pressure gas to generate bubbling vibration to clean fruits and vegetables. and with ozone disinfection function to kill the bacterial and oxidize pesticide.

### Main features:

- \*Small volume
- \*Bubble cleaning without damage
- \*Ozone disinfection function

High pressure bubble function

Orifice plate can be lifted up

Safety waterproof buttons

Model	Size	Input	Voltage Supply	Capacity
DS-WB055	1000*740*1000mm	0.55KW	220V/50Hz	200kg/h
DS-WB150	1500*760*1000mm	1.5KW	380V/50Hz	600kg/h

## Bubble Washing Machine with Conveyor Belt

DS-WB260

DS-WB350

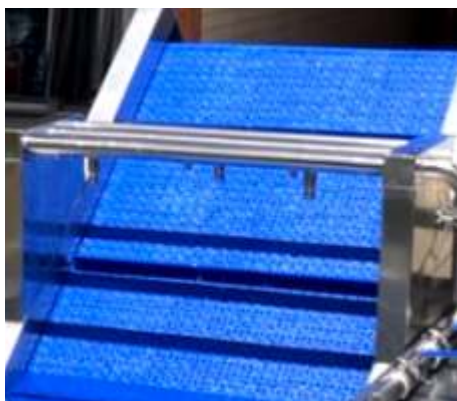

It is mainly through the bubbling and second spraying two cleaning methods to clean the vegetables and fruits. it has ozone disinfection function to kill the bacterial and oxidize pesticide. The discharge action is lifted by conveying belt, and spraying is performed on the elevator for second cleaning.

### Main features:

- \*With conveyor belt
- \*Second spray for further cleaning
- \*Ozone disinfection function

Bubble washing

Conveying belt

Second spraying

Model	Size	Input	Voltage Supply	Capacity
DS-WB260	2250*940*1280mm	2.6KW	380V/50Hz	800kg/h
DS-WB350	3250*940*1280mm	3.5KW	380V/50Hz	1500kg/h
DS-W350S	3250*940*1280mm	3.5KW	380V/50Hz	1500kg/h
DS-WB400	4250*940*1280mm	4.0KW	380V/50Hz	2000kg/h

## 360 Vortex Bubble Washing Machine

DS-WB300

DS-WB350V

360 Vortex bubble Washing is suitable for cleaning leafy vegetables, rhizomes and pickled vegetables and fruits. It with bubble cleaning, vortex washing and automatic circulating water design advantages. It adopts vibrating conveying instead of traditional conveyor belt conveying to effectively separate the debris in the material and remove excess water.

### Main features:

- \*360 Vortex bubble washing
- \*Automatic circulating water
- \*Separate the debris

Vibration conveying mechanism

Drum separator

Slag barrier & Circulating water tank

Model	Size	Input	Voltage Supply	Capacity
DS-WB300	2200*900*1500mm	3.0KW	380V/50Hz	800kg/h
DS-WB350V	4080*1200*1600mm	3.5KW	380V/50Hz	1000kg/h
DS-WB350S	3200*900*1500mm	3.5KW	380V/50Hz	1200kg/h
